

# Quantum of Deeva

---

## EIGHT DIFFERENT TECHNOLOGIES IN ONE MACHINE

Multi-purpose device that exploits quantum theory to apply a toning and remodelling action on different areas of the body. The device is prepared to create a true work method that guides the operator towards the choice of the proper treatment program and the correct application of the various technologies, through a preliminary check-up phase. Each program is managed directly from the device, which suggests which and how many sessions are to be applied, and the relative technologies to be used.

The treatment method includes **3 different work phases** that focus on the blemishes in the area.

The work phases are:

**1st PHASE** Check-up, to detect and elaborate the data; propaedeutic to the choosing of the best treatment.

**2nd PHASE** Cellular re-information, designed to ensure the preparation of the area about to be treated.

**3rd PHASE** Boosting, focused action with specific technologies.

**QUANTUM OF DEEVA** multi-purpose body device uses a last-generation software that was entirely written in Italy. Its intuitive and dynamic interface guides the Operator through the treatment phases, providing support when making choices and elaborating the collected data. The program can be set manually, choosing freely from the work phases available, or in the guided mode.

**TECHNICAL DATA SHEET**

<b>Input voltage</b>	230 V - 50 Hz
<b>User interface/display</b>	10" touch - 1280x800 px
<b>Resolution of interpolated THERMAL CAMERA</b>	480x640 px
<b>PHONO QUANTIC frequency</b>	1-3 MHz
<b>PUSH IMPACT frequency</b>	450 KHz
<b>SHOCK WAVE pressure</b>	4,0 Bar
<b>ENDOMASSAGE pressure</b>	-0,7 Bar
<b>Adjustable WARM OVER/CRYO temperature</b>	0°- 45°
<b>PHOTO QUANTIC laser class</b>	3 R
<b>Photo quantum diode wavelength</b>	904 nm
<b>Size of device</b>	50x40x100 cm
<b>Weight</b>	45 Kg
<b>Safety class</b>	1 / BF
